# GC&C AT A GLANCE

## GLOBAL COORDINATION. LOCAL INSIGHT. TRUE PARTNERSHIP.

Generali Global Corporate & Commercial (GC&C) is Generali Group's **global business unit**, specialised in Property and Casualty (P&C) products, services and Specialty Lines for **medium-large companies**.

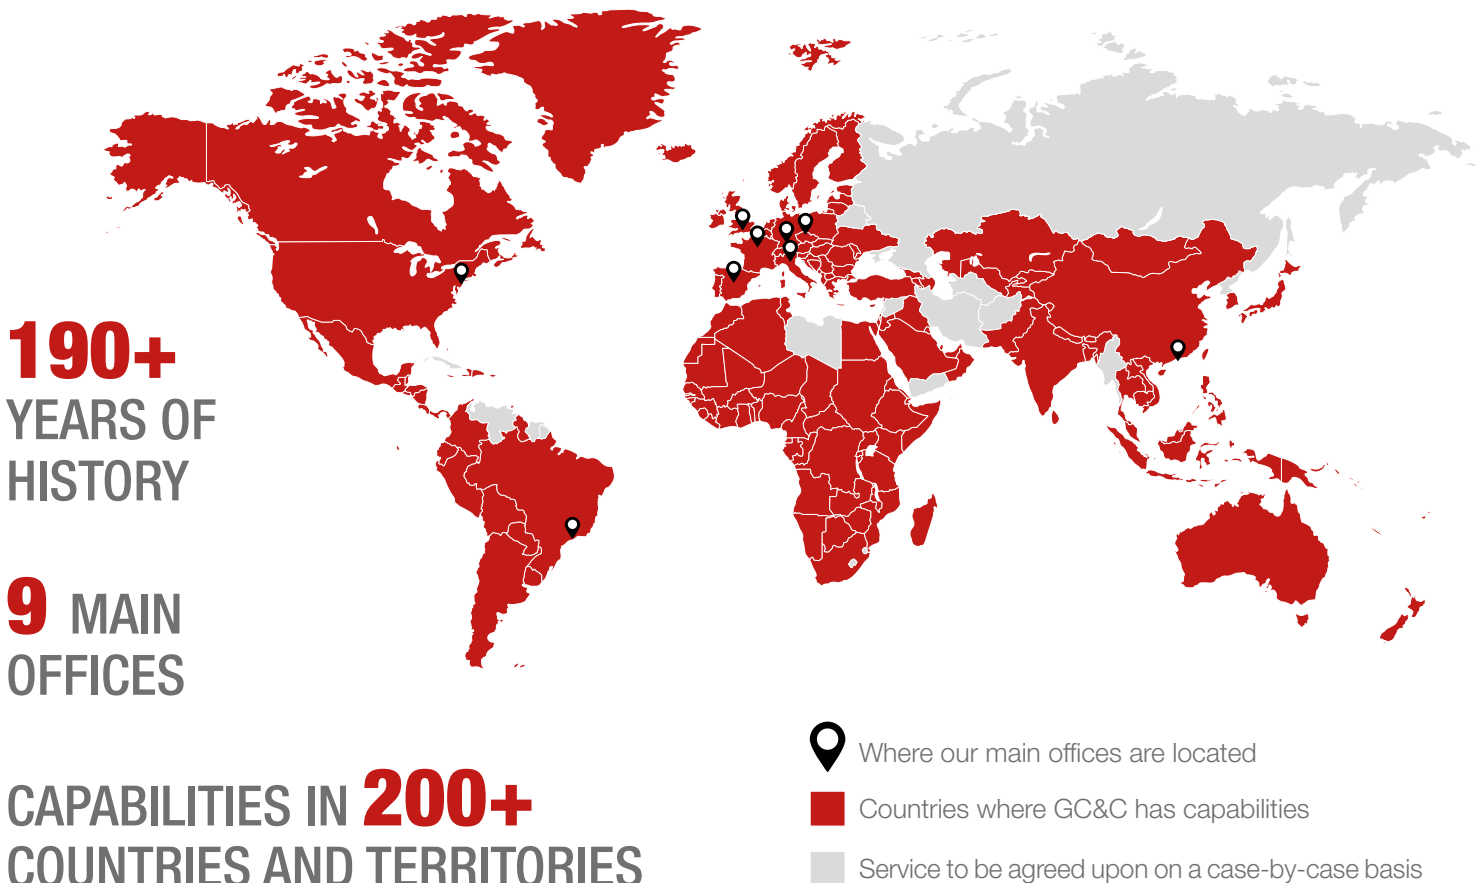

Founded in 2013, GC&C builds on Generali's **190+ years of history** of protecting what matters most to our clients. We focus on insurance solutions for corporate and commercial clients, combining **technical excellence** with the **human touch** – as a true **Lifetime Business Partner**.

We act on a **global scale** through a central management team, combining **global expertise** with **local insights**.

Through our committed people and underwriting expertise, we deliver **service excellence** and put clients at the heart of everything we do.

We know that right here, right now, is the only place the future is built. That's why our focus is on providing **tailored products**, **attentive service**, and **data-driven advice** to ensure our clients are prepared for what lies ahead.

## DISCOVER OUR GLOBAL FOOTPRINT AND EXPERT CAPABILITIES

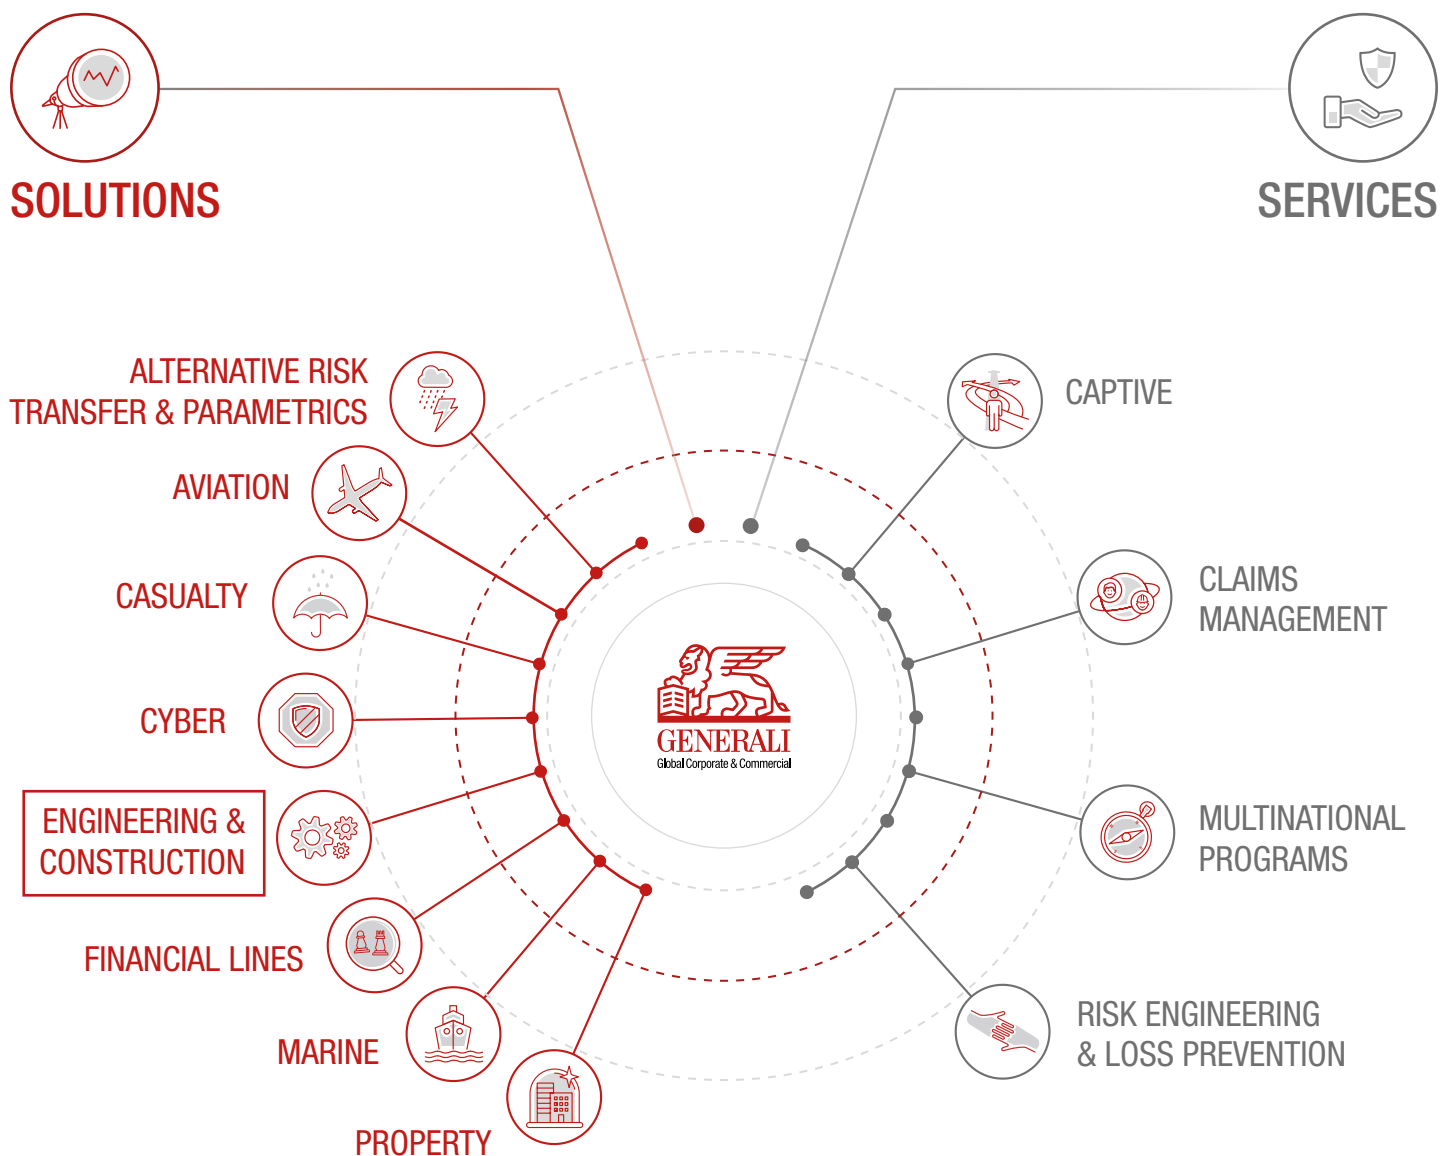

# OUR GLOBAL SOLUTIONS & SERVICES

## YOUR CHALLENGES ARE OUR BUSINESS

GC&C combines **integrated insurance solutions with value-added services** to support clients in managing complex risks and enabling business growth at a global level.

**Solutions** represent the **core insurance offering**: tailored, flexible and globally coordinated coverages. **Services** represent the **added value beyond the policy**: expertise, advisory and operational support.

# DELIVERING COMPLEX PROJECTS IN AN UNCERTAIN WORLD

## FROM INFRASTRUCTURE TO INDUSTRIAL PROJECTS, WE HELP YOU BUILD WITH CONFIDENCE

Engineering and construction projects play a fundamental role in **supporting economic growth, infrastructure development and industrial transformation**. At the same time, organisations face an **increasingly complex environment** shaped by technological innovation, sophisticated machinery & electronic operations, evolving regulations, climate-related challenges, geopolitical uncertainty and changing project delivery models.

As projects become larger, risk exposures continue to grow across every stage of the project lifecycle.

From planning and financing to construction, testing and commissioning, **effective risk management is essential to protecting investments, maintaining business continuity and supporting long-term success**.

Organisations therefore require **specialist expertise, strong technical capabilities and tailored solutions** capable of addressing the unique challenges associated with complex engineering and construction activities worldwide.

### KEY AREAS OF EXPERTISE

- » Construction Projects
- » Infrastructure Development
- » Data Centres
- » Industrial Facilities
- » Renewable Energy Projects
- » Machinery & Equipment
- » Electronic Equipment
- » Delay in Start-Up Risks
- » Inherent Defect Insurance (only for Italy)

# ENGINEERING & CONSTRUCTION AT GC&C – OUR APPROACH

---

At GC&C, we support clients across the engineering and construction sector through **specialist expertise, technical underwriting capabilities and bespoke solutions** designed around complex projects and criticalities of machinery in operation. Working closely with clients and brokers, **we help organisations manage risk across every phase of the project lifecycle**, through construction, testing, commissioning and machinery operational management.

Our approach combines **underwriting expertise, Risk Engineering, Loss Prevention and dedicated claims support to help identify, assess and mitigate risk before losses occur.**

By bringing together underwriters, risk engineers and claims specialists, we help clients navigate increasingly complex project environments while supporting resilience, business continuity and long-term project success.

Supported by empowered local teams and a large multinational network, **we combine global expertise with local insight to support clients** wherever they operate. Whether supporting infrastructure developments, industrial facilities, specialised engineering projects or covering machinery in operation, we tailor solutions to the specific technical, contractual and operational requirements.
